About us

We are an international team of students who organize the Third International Students' Conference ICON 2020 at JGU. The conference is dedicated to the topic "Identities and Representation". We want to bring together students from all over the world and from various disciplines to present and discuss their research findings. We believe that students can make a valuable contribution to the scientific enterprise. That is why we want to provide a platform for interdisciplinary exchange.

In our team you can

- actively design and implement your own ideas
- take responsibility within the team
- improve skills such as putting together the conference program, chairing sessions etc.
- may get ECTS credits/ do an ERASMUS or a job-related internship, and receive a qualified certificate
